

General Presentation

Who we are

We are a small family owned company. Since 1990 we grew to have 50 employees and an annual turnover around 1 million euro in 2016. We are an ISO 9001:2015 and ISO 14001:2015 certified company specialized in mechanical production, mechanical engineering and CNC precision machining. We are equipped with new CNC machines and work with the client drawings or pattern (3D model). We have specialized engineers in the mechanical field that are experts in the design of the prismatic parts and extremely complex parts. We are specialized in manufacturing unique parts and small series. Our clients are mostly from automotive, aerial and military industries. Some of our clients:
